Technical Datasheet

MAINTENANCE

- **Easy and safe cleaning:** Designed for frequent cleaning without compromising their integrity. Water or polypropylene-safe products, such as mild detergents or neutral soap, can be used. They withstand high washing temperatures without deformation, making them ideal for industrial cleaning and disinfection processes.
- **High durability:** Service life exceeding 20 years, even with intensive use and frequent washing.
- **Hygienic and functional design:** Designed for food use. Prevents insects from climbing the walls. In addition, the design includes optimal ventilation and facilitates drying after washing.
- **Efficient storage:** The boxes can be nested when empty, significantly reducing storage space requirements and logistics costs.
- **Optimized Engineering:** Its design prevents moisture buildup and eliminates dead zones, ensuring optimal cargo preservation.

TECHNICAL SPECIFICATIONS

Material:	Polypropylene
Color:	Green 6032 - 6018
Weight:	1 kg
External dimensions:	600 x 400 x 150 mm
Volume:	15 liters
Depth:	28 mm
Distance between stacked boxes:	28 mm
Boxes per pallet:	300
Pallet dimensions:	1.200 x 800 x 1800 mm
Standard truck:	33 European pallets, 9900 boxes
